**End:** 4/17/2013 5:00:00 PM  
**Show Time As:** Busy

Michael Berkoff and I would like everyone to attend this meeting regarding the Allied Landfill, part of the Kalamazoo River Superfund Site in Kalamazoo, MI. We are rapidly approaching the time to release the Proposed Plan and the follow-up public meeting/hearing on EPA's proposed remedy for the Allied landfill. This should occur sometime in late May/June. We have distributed the most recent press information and obviously the community is upset with EPA's tentatively proposed remedy to consolidate and cap the waste materials in place. The community would like all of the materials in the landfill excavated and shipped off-site.

There is much more history related to this issue dated back to 2007 and earlier, and Michael and I will brief everyone on this at the meeting. We also want to make sure everyone has a high-level understanding of the Allied Landfill as well as the various options being considered. In addition, we will be able to update everyone regarding our recent communication with the City of Kalamazoo.

Since we anticipate much public and congressional concern and interest in the next couple months, we would also like to get everyone's thoughts on a communication strategy and a path forward.

Thanks  
Jim
